

ELECTRONIC PRESS KIT

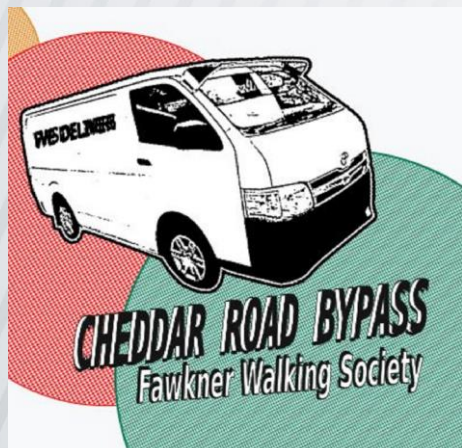

FAWKNER WALKING SOCIETY

Passionate, experienced band looking forward to bringing new music, colour and life to your venue.

Band Bio

Fawkner Walking Society hail from Melbourne's inner north and their sound is a blend of indie guitar pop and alt-country, reminiscent of Australian 90s alternative pop bands like the Go-Betweens. At times, employing melodic guitar lines woven with evocative lyrics, FWS also embrace the highs and lows of urban living with a bit of noise and humour, a sound to be documented on their second album due for release in 2024. With their debut album in the can, FWS are looking to expand and explore new opportunities. Through a contemporary sensibility, FWS presents an authentic perspective in their own indie sound.

Review of Debut EP

Read the full review [here](#).

‘...what’s happening here musically are warm tones, smooth harmonies and a nice, indie/folksy pop vibe that’s inviting. “Fawkner Walking Society” offers a rolling rhythm – hip, tender and pleasantly smooth.’
